

INSTRUCTION SHEET

- 1** Remove unit from rolling case.

- 2** Lay frame on floor with graphic facing up.

- 3** Pull frame outward and align locking arms. Make sure webbing is not wrapped around the locking arms.

- 4** Connect all locking arms.

- 5** Once unit is locked, lift frame into place.

How to install / replace a graphic

- 1** Assemble frame and lay on its back. Remove existing graphic.

- 2** Starting at one corner, attach velcro on the graphic to velcro on the frame.
NOTE: Velcro on the graphic should extend approx. 1/4" - 1/2" beyond velcro on the frame (it should not be flush).

- 3** Working in a continuous direction around the frame, attach the rest of the graphic. Make sure the graphic is pulled taut while attaching the velcro.

- 4** If needed, adjust velcro for taut fit.
