Printing Processes

We can print on a wide range of uncoated and coated rigid materials, also textured surfaces such as hard or soft foam, aluminum, acrylic, polycarbonate sheets etc.

Applications include:

- UV Gel
- UV
- Solvent
- Laytex
- Dye-Sublimation

Large Format Finishing

We offer a full range of finishing options including cutting, coating, laminating, and mounting.

Digital Cutting

Not only will you benefit from the clean, consistent edges produced by our digital cutter, you also have the option to have your projects cut into custom shapes! Our digital cutter allows our customers to break away from traditional "square-format" advertising. Because the cutter is digital, we can cut any quantity whether you need 1 or 1,000 we can get the job done.

UV Coating

UV coating adds a "WOW" factor to your prints by brightening and enriching your colors. UV coating almost completely eliminates scuffing and adds a protective, durable, easy-to-clean surface to your print. This coating is applied as a liquid and then cured instantly under an ultraviolet light and it covers the entire finished piece without showing on the edges. Since the coating is cured with light rather than heat, no solvents enter the atmosphere.

Laminating

Lamination will help improve durability and appearance, brighten colors, enhance contrast, and can be cleaned without damaging the print. Protect and preserve your prints with lamination. We offer flush-cut lamination or encapsulation in the following finishes:

- Matte
- Luster
- Texture
- Gloss
- Anti-Graffiti
- Non-Slip
- Dry Erase

Mounting

We offer several substrates to mount to including, but not limited to:

- Foamcore (available in black or white)
- Ultra Board (available in black or white)
- Expanded PVC (assorted colors)
- Styrene
- Wood
- Acrylics
- Glass

Photographic

Prints are continuous-tone with over 16 billion colors, seamless up to 49.5" x 120" or can be produced in panels. The following display mediums are available. We can help you select one that fits your printing needs:

- Matte - Full color prints that are bright, with accurate colors, excellent contrast and gradation.
- Flex - Polyester-based material that has an emulsion layer on the front with a white plastic backing
- Trans - Applications in backlighting with an emulsion layer on the front with a transparent plastic backing
- Clear - Clear material used for overlays or transparencies.

Small Format Printing

Business Cards

Nothing sets your business apart from the competition like brilliant full-color business cards. Cards are printed on a 12pt stock.

Postcards

Postcards are a great way to promote your business. They are inexpensive to print and mail. Standard sizes are 4x6, 5x7, 5.5x8.5 and 6x9 formats, or a custom size. Choose full-color both sides, color front with blank back or color front with black and white on the back.

Rack Cards

On the spot marketing with rack cards. Cards are a standard 4"x9" size with options of full color both sides, full color front, black and white on the back, or blank back.

Counter Cards

If you're looking for great advertising in a small personalized way. Counter cards are the perfect solution. Your artwork will be printed on our thick 12pt matte stock, and then we add an easel to the back to create a freestanding display. The most popular size is 8.5"x11", however we can go as large as 12x18.

Table Tents

Table tents are a free standing display. We print your artwork on a 12pt C1S stock, add scores and slits to create a great looking free standing display. Standard size is a 5x7 viewable printed area showing on each side of the tent. Call us today to see a sample or for more info.

Door Hangers

Greet your customers at their front door with full color door hanger printing. Door hangers are a simple and effective marketing tool.

Bookmarks

What a great eye-catching retail product, a great gift or affordable promotion. Nobody likes dog-eared pages or losing their place when they put down a book. Whatever the picture, whatever the reason, people love bookmarks. Standard sizes are 2x6 and 2x7, or custom.

Brochures

Brochures are a single sheet document. They come in several sizes and styles, depending on the application. They can be custom printed to your specifications.

Flyers

Make an impact with vibrant, high quality flyer printing. Flyer printing is an affordable way to get noticed. They are a great way to advertise special deals and attract new business, or promote an upcoming event.

Invitations

Invitations are a very important tool in making an excellent first impression to your guest. Whether you are planning a wedding, bridal shower, baby shower, birthday party, or business gathering, invitations can convey the character of your gathering and determine how many people will attend.

Newsletters

A newsletter or pamphlet can be a powerful marketing tool. It maximizes top-of-mind awareness, it is a great positioning tool, it makes the customer aware of the other products and services your company offers, and it strengthens customer loyalty and triggers repeat sales. A newsletter is a branding tool that makes a statement for your business.

Posters

Posters are a very flexible advertising tool. They consist of oversize sheets that are printed and are used for display and or promotional purposes. There are several varieties depending on application and industry. Posters can be printed in numerous sizes ranging anywhere from 8.5x11 to 12x18. Promote your next tradeshow, campaign, festival, or opening with a beautiful full color poster.

Stickers

Stickers are printed in any size up to 12x18.

Tabs

Custom printed tabs for all of your important documents.

Small Format Finishing Options

Corner Staple

We can easily hand-or machine-staple your documents.

Saddle Staple

Staples are inserted into the spine of folded printed matter such as booklets, catalogues, brochures, and manuals.

3-Hole Drill

Our standard hole pattern is 3 holes drilled for use in a 3 ring binder. The position and number of holes can also be determined by a customer-supplied sample.

Scoring

To compress paper along a straight line so it folds more easily and accurately. Also called crease. This process helps prevent ink from cracking when it is folded.

Perforating

We create a line of small dotted holes, for the purpose of tearing off a part of your printed piece (usually straight lines, vertical or horizontal).

Black Comb Binding

They are ideal for all of your presentations, proposals, reports and manuals. These high-quality black binding combs give you a premium look at a reasonable price.

Black Coil Binding

Coil binding is a style of binding that uses a spring-like spiral or coil to bind a book. Coil binding is growing in popularity. Coil bound books allow pages to be easily turned and even be wrapped around.

Silver Screw Post

They might also be called Chicago screws or Chicago screw posts. They are great for binding all types of products. They can be used for swatches, scripts, photo albums, wine lists, menus, and much more. Screw posts by their nature allow the bound product to be easily updated.

Black Wire-O & Silver Wire-O

Wire binding is a style of binding commonly used for businesses to create professional-looking documents. The wire, often referred to as wire comb or twin-loop / double-loop binding, has two small loops of wire that go through each punched hole. This style of binding is used to create books, reports and other documents.

Plastic Cover

Protect the front of your document from with a durable clear cover. We have sizes from 8.5x11 up to 11x17.

Vinyl Back

A black heavyweight cover that has the look and feel of real leather. They are typically used as a back cover to give your document a polished look.

Lamination

Protect your printed materials with a double-sided gloss lamination. If requested we can encapsulate the prints so your document is completely sealed.

Shrink Wrap

We can wrap your printed piece with a thin plastic film. Great for presentation, or makes it a snap when your piece needs to go to multiple locations. We can package in any quantity you request.

White Binder

Create the perfect cover page, then place it inside the see-through plastic overlay. Two inside pockets for additional storage of loose documents.
