

STADIUMS AND ARENAS

BRANDING AND SAFETY

USE SEAT AND BLEACHER COVERS TO CREATE ADDITIONAL BRANDING OPPORTUNITIES

Regardless of the crowd size, stadiums and arenas are visible on television. These backdrops are the idea area to make a statement, increase exposure and generate sponsor revenue.

- Stadium wall covers
- Bleacher covers for front rows
- Stadium covers for unused top rows
- Seat covers to enforce social distancing

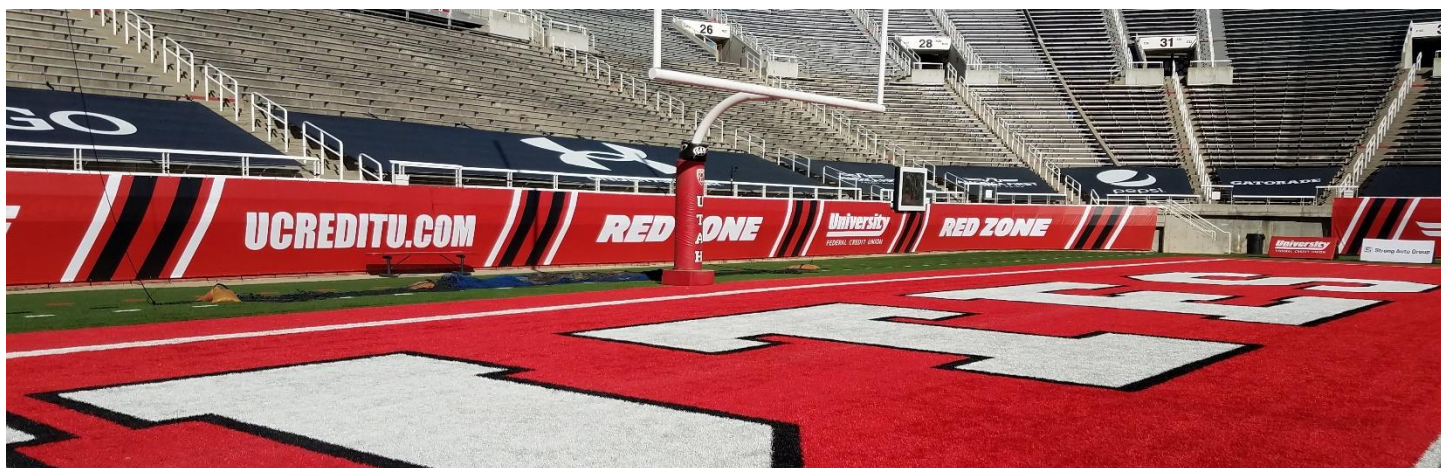

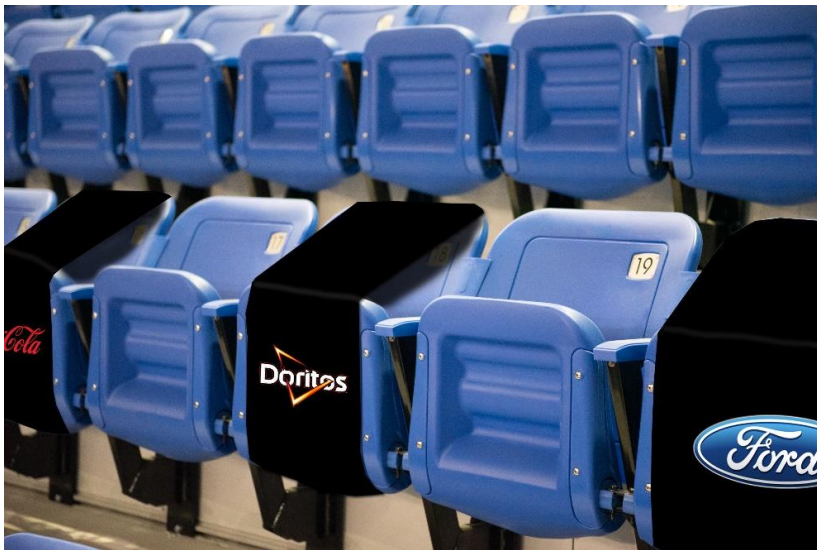

We understand the importance of keeping your events safe. Empty seats can still provide revenue. Sponsors are eager to fill spaces that display prominently on local, regional and national television events.

Vision Graphics has the experience to create, install and service your stadium and arena graphics. We specialize in products to protect fans and staff alike.

We're ready to cover individual seats, entire sections of your stadium, and everything in-between. We have ideas for permanent, semi-permanent and removable graphics. We'll customize the solution to meet your exacting needs.

Turn to us for all of your needs with social distancing floor dots, Plexiglas counter barriers, partitions and crowd control.
