

PROTECTIVE FACE SHIELDS

DISPOSABLE PROTECTIVE BARRIER TO PATHOGENS

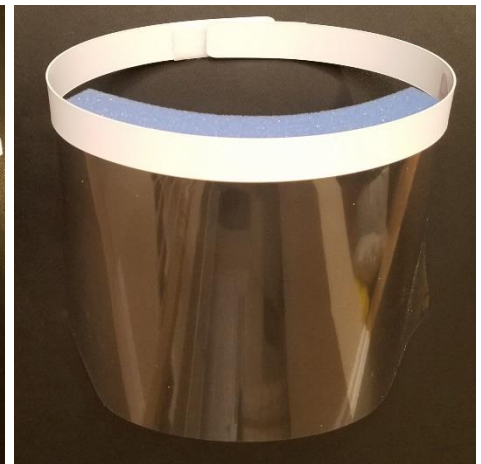

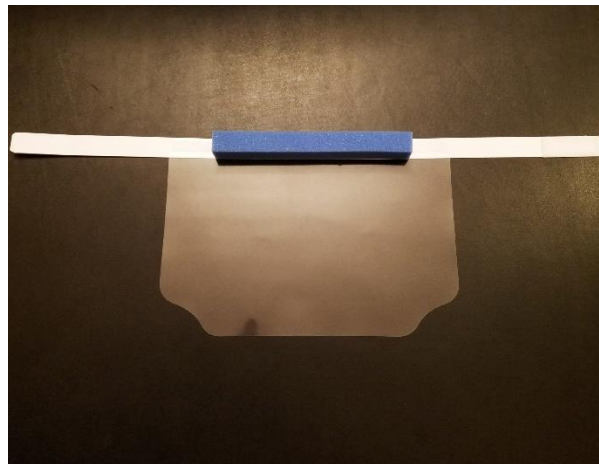

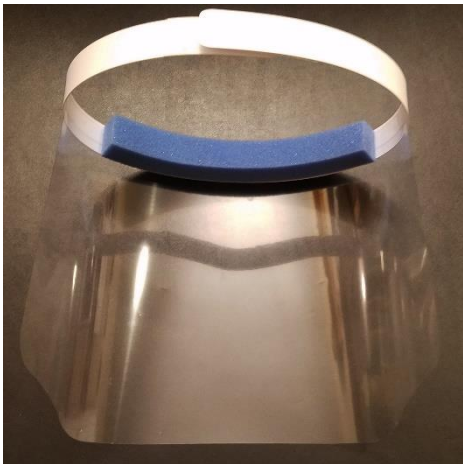

Face protection – Provides complete face coverage against aerosols, splatters and coughs. Protect against airborne pathogens, even in close quarters.

Durable plastic – Scratch and crack resistant plastic provides protection all day. Can be cleaned with common disinfectants, if necessary.

Simple, strong Velcro strap – Easy to put on and adjust, even when wearing gloves.

One size fits all – Wide Velcro strap allows shield to fit heads of any size. Perfect for simplified inventory management.

Comfortable forehead cushion – Lightweight cushion creates comfortable barrier without putting a strain on the forehead.

- We fulfill orders of any quantity.
- Need 100 or 100,000? No problem!
- Custom patterns accommodated.
