

Visitex

Visitex adhesive is Re-movable, Re-usable and Re-positional. Visitex's characteristics separate itself from all other products on the market using vinyl or similar fabrics. One of the biggest benefits include its ability to stick to virtually any painted surface (in all weather and room temperature changes), and can be easily removed with a 99% guarantee the surface will be residue free. The material does not rip or wrinkle and is not required to be removed over a certain period of time. Not recommended for brick, non-painted cement surfaces, or heavy painted spackled wall board.

FEATURES	BENEFITS
Material-Thickness	280 microns (material-only).
Material-Weight	240 gsm
Ink Compatibility	UV, Dye-based, Pigment, Solvent, Eco-solvent
Lamination/UV Coating	Compatible and receptive
Indoor Use	Durable adhesive is expected to maintain its effectiveness for more than a year with the ability to maintain its removability/repositionability. Under normal indoor use, Visitex is likely to remain in place for multiple years.
Outdoor Use	6-12 months weatherproof/fading. Lamination or UV coating will improve outdoor durability
Environmental Impact	Visitex is environmentally safe and bio-degradable over time, with no PVC and is non-toxic. There is no Glycol-ether or Formaldehyde in the adhesive and no detrimental concerns of Phthalates.
