

## CORX

CORX is a twin wall profile extrusion made from polypropylene and used in the printing, display and packaging markets. Our CORX sheet has a smooth, even surface for optimal printing, with minimal texture due to the natural rib-structure of the material. CORX is ideal for outdoor display solutions and is not affected by adverse weather conditions or moisture. Also, it performs very well indoors, even in areas where exposure to oils, water or other solvents may occur.

CORX uses a copolymer resin in order to increase impact and low temperature performance. Copolymer resins are also used because they retain the ability to be flexed an unlimited number of times without breaking. This allows for the material to act as its own hinge.

Substrate Type	Trade Names	Sheet Construction	Applications	Why Choose This Material	Fabrication	Outdoor Use
Corrugated Plastic Fluted Plastic	Cor-x Coroplast Intepro	Extruded polypropylene flutes and facers to form a corrugated sheet  Specifically treated for printing and graphic display	POP displays Real Estate Signage Political Signage Indoor Signs Outdoor Signs	Great for short-term outdoor use  Fluted material makes for ideal use with ground stakes  Economical	Mounting Direct Digital Printing I-Cut Fluted Easels Pressure Sensitive Vinyl	Excellent for indoor and outdoor use

Gauges	Stock Sheet Size	Colors	THICKNESS GUIDE
3mm	4ft x 8ft	White, multiple colors available	
4mm*,**	4ft x 8ft 5ft x 10ft		
6mm	4ft x 8ft		
10mm	4ft x 8ft		

\*Normally stocked

All statements, technical information and recommendations about Vision Graphics substrates are based upon tests believed to be reliable but do not constitute a guarantee or warranty. All Vision Graphics products are sold with the understanding that the purchaser has independently assumed responsibility in determining the suitability of such product for its purposes. +1/-2 variance is allowed on all specs.

It is the responsibility of purchasers to independently verify, prior to use, the suitability of the products for their specific applications and print methods. SBR/Vision Graphics cannot be held liable for any misuse, damage or losses as specified in its product warranty. Subject to change without notice.
